

These lightweight moldings may be used inside as well as outside. We can create any size and any design and shape that you or your architect desire. We are a builder friendly company and work well with contractors on cutting edge designs.

If you don't see it in our catalog, just give us a call!

Corbels come in one of three styles;

Open Top

Open Back

Solid

Rough Sawn Corbels

Our corbels will add a look of quality and distinction to your project. They have the look and feel of real exposed timbers without the problems associated with having wood exposed to the elements. Our corbels have exceptional detail in design and are easy to install. They are impervious to moisture and the elements that cause real wood to buckle, twist, and crack.

Smooth Corbels

Smooth corbels are sharp in detail and when placed over stucco or siding, the contrast in materials give the home great curb appeal.

Bullnose Corbels

Corbels can be cut to length.
Dimensions are always give in W x H x D

CORBN-4-10-16RS

CORBN-4-10-16RS Corbel Bullnose 4x10x16 Rough Sawn

CORBN-6-8-16RS Corbel Bullnose 6-8-16 Rough Sawn
