

## Flat Stock and L Shaped Beams

**Flat Stock** and **L shaped beams** are often a great accent to window and garage door headers.

They have the appearance of rough sawn lumber, but are resistant to warpage and the typical problems related to real lumber.

Garage and window headers are typically 1" or 2" thick, with the height of the flat stock proportionate to the overall size of the window.

Definitions of part numbers are as follows:

### Flat Stock:

The letters FS- (thickness x height) x overall length and the letters RS at the end

**Example:** Part Number FS-1-12-48-RS equals a 1" x 12" x 48" in length

**Example Part Description:** Flat Stock 1" x 12" x 48" Rough Sawn

### L Shaped Beams:

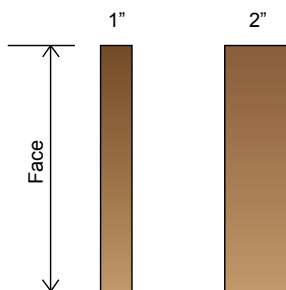

The letters BEL- (thickness x height x return length) x overall length and the letters RS at the end

**Example:** Part Number BEL- 1-12-3-48-RS equals a 1" x 12" face with a 3" return and overall length of 48"

**Example Part Description:** Beam L Shape 1" x 12" with 3" return 48" in length Rough Sawn

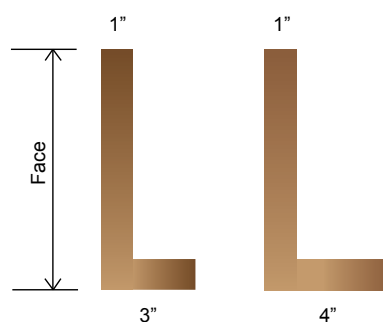

Both Flat Stock and L- Shaped Beams are sold by the Lineal Ft. The return length on the L Shaped Beams is per your specifications and is not considered a special order item.

Flat Stock

Flat Stock is available in 1" or 2" Thickness

L Shape Beam

L Shaped Beams are available in 1" standard thickness, other thickness available upon request

BEL-1-4-3-(LF)-RS Beam L-Shape 4" Face , 3" return, Rough Sawn

BEL-1-6-3-(LF)-RS Beam L-Shape 6" Face , 3" return, Rough Sawn

BEL-1-8-3-(LF)-RS Beam L-Shape 8" Face , 3" return, Rough Sawn

BEL-1-10-3-(LF)-RS Beam L-Shape 10" Face , 3" return, Rough Sawn

BEL-1-12-3-(LF)-RS Beam L-Shape 12" Face , 3" return, Rough Sawn

BEL-1-4-4-(LF)-RS Beam L-Shape 4" Face , 4" return, Rough Sawn

BEL-1-6-4-(LF)-RS Beam L-Shape 6" Face , 4" return, Rough Sawn

BEL-1-8-4-(LF)-RS Beam L-Shape 8" Face , 4" return, Rough Sawn

BEL-1-10-4-(LF)-RS Beam L-Shape 10" Face , 4" return, Rough Sawn

BEL-1-12-4-(LF)-RS Beam L-Shape 12" Face , 4" return, Rough Sawn
